Re: U.S. Patent Application Serial No. 60/395,521
Entitled: "Method and Apparatus For Locking Out a Subsurface Safety Valve"
Our Ref.: TEJ/0004

Dear Mike:

As you know, our firm represents Tejas Research Engineering in connection with intellectual property matters. We have prepared a patent application for Tejas entitled "Method and Apparatus for Locking Out a Subsurface Safety Valve." A copy of the application is enclosed for your reference.

In anticipation of filing the patent application, we ask that you sign the formal papers for the Patent Office. Copies of the Assignment, the Declaration and the UK Authorisation are each enclosed for your signature. We are also enclosing a self-addressed return envelope for returning the signed formal papers.

We thank you in advance for your assistance in this matter. Your name will appear as one of the listed inventors on the patent once it issues. Please call if you have any questions.

Sincerely,

MOSER, PATTERSON & SHERIDAN, L.L.P.

Peter L. Brewer

Please Note

••The courtesy rate shown here may be different than the actual charges for your shipment. Differences may occur based on actual weight, dimensions, and other factors. Consult the applicable FedEx Service Guide or the FedEx Rate Sheets for details on how shipping charges are calculated.

FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g., jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits; Consult the applicable FedEx Service Guide for details.

Tejas is dedicated to providing the downhole Oil Service Industry with a cost effective resource that responds to client product development needs.

- **Faster Product Development Cycle**
- **Shorter Time to Market**
- **Design to Client Specifications**
- **Parametric Solid Modeling**
- **Finite Element Analysis**
- **Testing to API and ISO Standards**
- **Quality Driven**

Tejas' mission is to deliver defect-free products and services that meet or exceed clients' requirements and expectations.

Providing high quality solutions is the driving force at Tejas Research and Engineering. Tejas has a quality management system that is both API-Q1 and ISO-9000-2000 compliant. Tejas provides products & services, which include design, production of prototypes, verification testing, API certification, and production of all documents necessary to enable product manufacture. Additionally, Tejas' QA system continually monitors process efficiency and provides feedback to continually improve product realization.

Tejas' services reduce the design cycle time dramatically and allow for products to get to market faster – possibly years faster...

Tejas employs top-quality professionals and provides each with the best possible technology to provide engineering, research, design, and validation testing services.

Tejas' team works outside the existing corporate structure and operates independently. This independence guarantees that engineers will have the freedom to remain focused on development projects. Tejas' quality-driven, solution-oriented approach provides high impact solutions and is the best value for R&D dollars.

**Let Tejas help you
tackle your R&D challenges.**
